

App Name: Sports Management

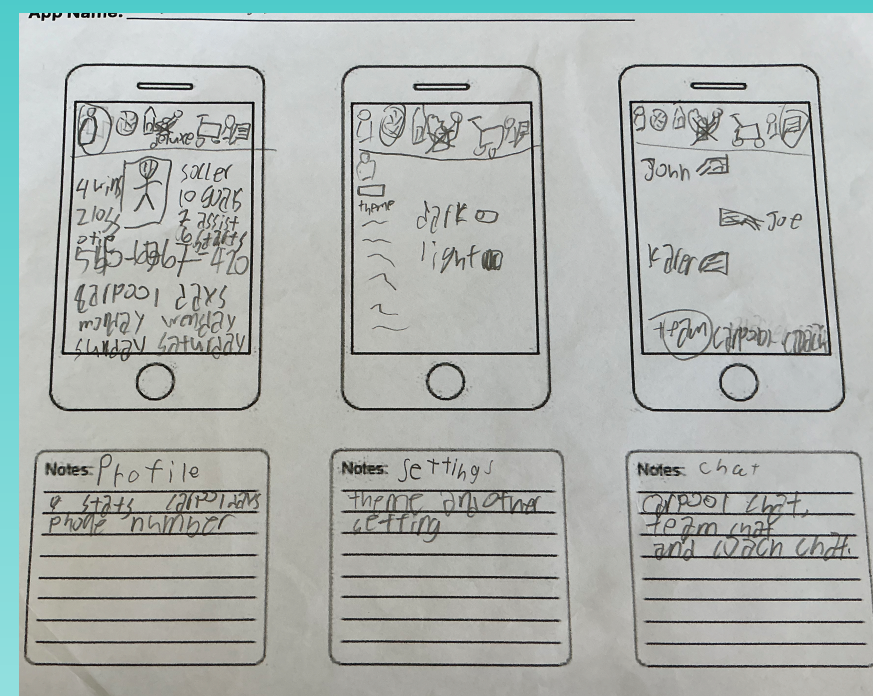

Group Info:
The group
Miles
Vincent
Samuel

App Rationale:

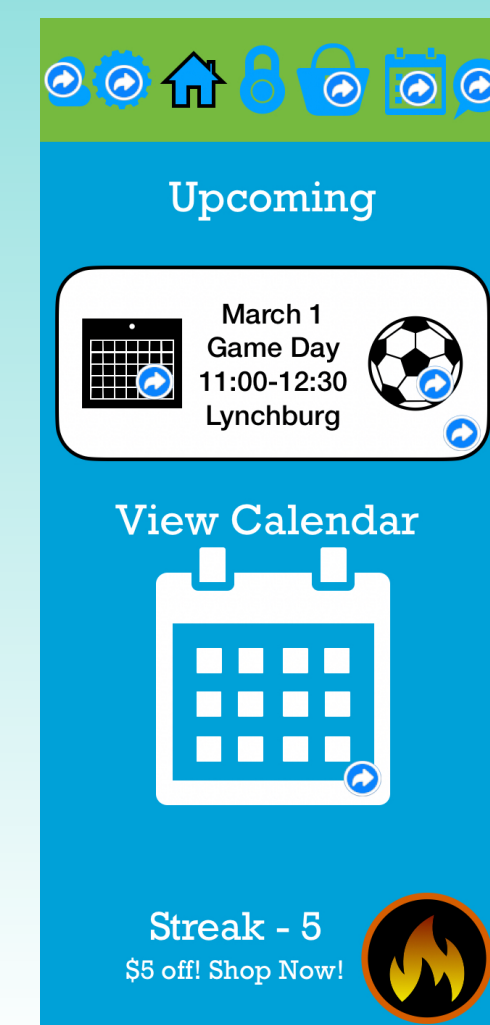

- We can help by providing calendar, team chats, a shop for sports gear, a carpool system, and settings and a profile to customize.

Design Process:

- Description of their app

We made a story board of app with profile settings and chat on this one

This is the homepage of our app it has a navigation bar on top With your upcoming events with a streak discount system. Upcoming Banner:

We could used if then statements. If the banner is clicked, take the user to the event description.

Calendar:

If the calendar icon is clicked, take the user to the calendar page

Target Audience:

- Families with children who play multiple sports.

- How their app will be used, including a demo of the prototype.
- Demonstration of the user interface, user experience, and coding concepts in the prototype.

This is the profile page, it has your stats your team name and your name and age.

Next Steps:

We can add a premium version with more helpful features.
